## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

Number of children transported .....	48
Total cost of transportation .....	\$ 976 37
State rebate to town .....	785 65
Making net cost to town transportation .....	190 72
Attendance at Grammar School 31. Per cent. of attendance	93
Attendance at Primary School 43. Per cent. of attendance	92
Attendance at Center School 35. Per cent. of attendance	93
Attendance at Hanksville School 30. Per cent. of attendance	95

The attendance the past year was very good and reflects the cooperation of parents. With good attendance and the hearty backing up of parents, the teachers' plans for instruction can go on without interruption. There seems to be a tendency for some parents to send their children under the legal age of six years. An immature child forms habits of non-progress which hinder him in later life. Only minor repairs were needed in any of the schools for the past year. New shades for C. E. Ross School were purchased. As soon as funds are available, I recommend the schools be wired for electricity.

Respectfully submitted,

EDWARD L. CLARK,  
Superintendent.
