Seventeen children have attended high school in other towns during this year.

Since September electric lights have been installed in the Catherine E. Ross School. These have been greatly appreciated by teachers and pupils during the dark winter days.

The Center and Hanksville schools are superior and I hope that in the not too distant future the Catherine E. Ross School may be entitled to the credits necessary for the superior rating.

Miss Jessie E. Freeman, state helping teacher, visited the schools in October and hopes to come again before the end of the school year. She was much pleased with the work she saw in the schools.

Respectfully submitted,
DAISIE K. ALGER.

The State's share of the permanent highway work and resurfacing work which is held up for technical reasons will reduce the above amount in a substantial way.

After examining the books of the several town officers we find them correct. However, we would suggest that some of the officers take more time with their bookkeeping, especially the first selectman.
