REPORT OF SUPERINTENDENT OF SCHOOLS

*To the Voters of the Town of Huntington:*

In compliance with the laws of the State of Vermont, I hereby submit my report as Superintendent of Schools.

The number of schools maintained during the past year is the same as in previous years. All schools have been continued for a period of thirty-five weeks which is the minimum required by law.

Schools with enrollments follow:

<i>School</i>	<i>Enrollment</i>
Catherine Ross—grades 1-4.....	25
Catherine Ross—grades 5-8.....	26
Center School—grades 1-8.....	26
Hanksville—grades 1-8.....	15

In all schools attendance has been good. Since the progress of pupils depends on regular attendance, it is essential that children be present at every session. I am pleased to note that parents realize the importance of this requirement.

During the school year which ended June 30, 1942, twenty-two pupils were transported an aggregate of 536 weeks at total cost of \$626.70 or an average of \$28.29 per pupil. This is below the average for many towns, and it will doubtless be reduced during the current year. The restrictions on the use of gasoline and tires has made it necessary to reduce transportation to a minimum.

Two new teachers were necessary at the beginning of the year. Miss Mary Haselton of Essex was engaged to fill the vacancy in the Catherine Ross School, and Miss Ruth Mitchell of Huntington was contracted to teach in Hanksville.

With an acute shortage of teachers in the state, the town was fortunate in securing the services of an efficient teaching staff. During the year, the teachers have been called upon to perform many duties outside their regular classroom work. These duties have been carried on efficiently and with a minimum of interference with the regular school work.

No new courses of study have been added to those already adopted. Some new texts in Reading which is one of the most important subjects taught in the elementary schools have been purchased.

In general, school buildings are in very satisfactory condition. Only a few minor improvements were necessary to bring the schools up to standard rating.

Recommendations for improvement which I would make are: More efficient artificial lighting and water supply in the Catherine Ross School. These are much needed corrections and they should be made as soon as possible. I would also recommend that a full year's supply of wood be purchased in advance in order that good dry wood may be available for the cold months.

In conclusion, may I express once more my sincere appreciation of the cooperation which the citizens of Huntington have extended to all who are directly connected with the progress of the schools.

Respectfully submitted,

EDWIN T. MALONEY,  
*Superintendent of Schools.*

#### OLD AGE ASSISTANCE DEPARTMENT

STATE HOUSE  
MONTPELIER, VERMONT

For the information of your taxpayers, the customary annual statement is presented for your town report.

Payments of Old Age Assistance to persons applying from your town amounted to \$3,015.50 during the year January 1, 1942 to December 31, 1942.

The number of recipients in December, 1942, was 16.

As this program touches every community and many persons, we believe the public should know the following facts:

The increase in the cost of food, fuel, rents and services constitutes a serious problem to persons dependent on small fixed allowances and has been the cause of much concern to the Old Age Assistance Department which is responsible for the welfare of about 5,400 aged individuals now receiving assistance. In addition, there are some 500 eligible applicants who cannot yet be helped because sufficient state funds are not available.

The resources of this department and its ability to make grants are determined by the state appropriation which is matched by federal funds. The Legislature, conscious of the needs of the

aged citizens of the state, has frequently given favorable consideration to this problem. The expenses of administering the program have been the lowest of any state in the Union on a comparable basis.

The advice and council of local officials and interested persons have been valuable and are gratefully acknowledged.

Very sincerely yours,

W. ARTHUR SIMPSON,  
*Director.*

## WAR BONDS

*To the People of Huntington:*

During the past year the people of the State of Vermont have purchased \$18,000,000 worth of War Savings Bonds. This represents an investment of approximately \$50 for every man, woman and child in the State.

Vermonters were able to buy \$18,000,000 worth of bonds last year mostly because 410 industrial and mercantile establishments throughout the State have provided a means whereby their employees can buy bonds on an installment basis. More than 38,000 men and women are included in the plan. Every week or every month these employers deduct from the employee's wages the amount that the employee has designated and the money is invested in War Savings Bonds.

Good though this record may appear it is not good enough. As Vermonters we did not meet the quota assigned to us, a quota based on known earned income. There are thousands of people throughout the State of Vermont *who have not yet bought a bond*, people who can and should buy them.

When you read this town report and realize that you manage your own town affairs because this is a free country just ask yourself, "Am I putting enough into this war effort to insure a continuance of freedom?" If you are not, then make plans to start buying stamps and bonds at once. Make a regular, definite commitment to buy systematically. Only in that way can you derive the full advantage of having such an investment offered you. Only in this way can our Government derive the benefit of your money NOW.

Our President says, "We fight to retain a great past. . . . We fight to gain a greater future." Do your part by buying bonds.

FRED C. MARTIN,  
*State Administrator,  
War Savings Staff.*
