REPORT OF THE SUPERINTENDENT OF SCHOOLS

No preparation in education is more fundamental than reading. It is to this end, therefore, that greater efforts are being made to help our students acquire the skills, speed, and comprehension as soon as their individual abilities permit. The impact of TV, more magazines, newspapers, and other social contacts have expanded

the interests of children beyond their immediate communities. Teaching methods and materials in English, social studies and arithmetic are increasingly supporting and extending the children's interests to explore widely and in this way improve their abilities to think, to reason and to conceptualize. The increasing efforts in science education in our classes help broaden the horizons of our students' understanding of the physical world around them. One element is common to all present and future issues in elementary education. This is the all important role of the teacher, for it is the teacher more than any other factor that determines the quality of education. There is no substitute for a person of high integrity, sensitive to children's needs, professionally well-trained to do the teaching job. However, there are factors which impose upon the efficiency of good teachers and thereby affect the quality of education that students receive. A good teacher will do an even better job if the student-teacher ratio is not high, the subject load is limited and sufficient modern teaching materials and equipment are at the teacher's disposal.

In addition to these factors, safe and sanitary school facilities make for a pleasanter environment in which teachers and students work. The improvements to the plants and equipment at the Hanksville School this year provide such an environment. The people of the town can be proud of these improvements. Last year, the improvements to the plant at the center were most commendable. Furnishings at this school should be replaced to improve the working conditions for the students. Thanks to the cooperation of the School Directors and the teachers at C. E. Ross School, the classrooms were painted. Here too, furnishings should be replaced as soon as possible to improve the working conditions in the classrooms.

The enrollment for this year is as follows:

Grades	1	2	3	4	5	6	7	8

C. E. Ross								
School	10	7	5	12	5	12	9	6
Center School.....	4	7	5	3	4	5	1	4

Respectfully submitted,

GEORGE W.M. BOUNTRESS,

Superintendent.

VERMONT STATE DEPARTMENT OF HEALTH
ANNUAL TOWN REPORT, 1960

The health of the town of Huntington is the concern of its citizens, its doctors, health officer, selectmen and the State Department of Health.

Through its various programs the State Department of Health staff works with and for local people on community health, operating

on both local and state levels. This is a report of some of the State Health Department services and programs your town used last year.

With the aim of keeping children well and helping handicapped children, well-child and school conferences were attended by 21 children. Nutrition and dietary consultations numbered 0. At the request of attending doctors 0 children received pediatric consultations, 0 received hospital diagnosis, 3 with orthopedic, cardiac, plastic or neurological conditions received services or appliances through clinics for handicapped children and 2 were given financial aid toward hospitalization costs. Mental retardation clinic services were extended to 0 children.

In the effort to control communicable disease 3 persons received chest X-rays; 63 children received immunizations, including boosters, against diphtheria, whooping cough and/or tetanus. Polio immunizations, including boosters, were given 47 children and adults in clinics and conferences. The State Laboratory performed tests on 3 water samples, 0 food and dairy products, 23 blood specimens and 6 other specimens. Vaccines, antitoxins and biologicals were distributed for protection against communicable diseases.

There were 0 sanitary inspections or consultations made at the town's food and lodging places and 6 concerning water supply, sewage disposal, public buildings and other problems, to protect health through improved town sanitation. Services to maintain and improve adult health in industry included 0 chest X-rays and inspections and consultations at plants. In connection with the state licensing program and the Hill-Burton federal aid program for hospital and medical facility construction there were 0 inspections-consultations to hospitals, nursing homes and homes for the aged.

Mental health services, through guidance clinics, educational meetings or consultations, were received by 0 persons and groups. Individual interviews with the psychiatrist, psychologist or psychiatric social worker were given 1. Under the community mental health program to develop local projects for prevention, treatment or education in mental health, financial assistance and staff consultations are available.

To promote better dental health 0 consultations and services were provided groups or individuals on town or school dental health problems.

In cancer work 3 received diagnosis and treatment at tumor clinics or were financially helped with hospitalization costs.

All programs in the department offer educational services. Pamphlets, films, a news release and information service and speak-

ers are available. A health educator is available to help town groups study their health problems and plan educational programs.

The Public Health nurse served at well-child and school conferences, X-ray and immunization clinics, assisted by local people. She visited homes, doctors, and agencies, making 237 visits on behalf of 50 persons and community health activities. Her service is an essential element in the department's program for health promotion, disease prevention, diagnosis, treatment and education.

Respectfully submitted,
R. B. AIKEN, M.D., M.P.H.,
Commissioner of Health.
